ABOUT HAT IT Solutions Private Limited

HAT IT SOLUTIONS is dedicated to information technology, infrastructure services and integrated solutions. HAT IT SOLUTIONS incorporated in 2022 as an Information Technology services provider partnering with several leading global manufacturers in the stream. HAT IT SOLUTIONS has a full company structured organization designed to make it flexible and adaptive to the changing and developing requirements of its customers. Continuous growth is our culture and philosophy that reflects on more than 35 employees each having executive experience in their fields.

A Digital Agency

By leveraging new business models, innovative capabilities and the wealth of data available, you can create a robust and efficient infrastructure, ensure safety and security, support the needs of individual clients and facilitate sustainable economic growth.

Problem Solvers

Cost Optimized solution integrates hardware, Software, business consulting and IT services into optimized solutions to meet your highest business goals. There are endless technical problems leading to endless solutions and new technologies are continually being introduced

Forward Thinking

Whether deploying new application services, modernizing existing business services or increasing solution availability, selecting and implementing a hardware architecture that will perform optimally and meet service-level agreements is a challenge for HAT IT SOLUTIONS (HIS)

Our Story

Gulf Infotech integrates networking hardware, software and IT services into optimized solutions to meet your highest business goals. We provide best-in-class web design and digital marketing services so our clients can be successful online and achieve their business goals. We help our customers to generate new leads and new customers online.

Customer Support

Services from Gulf Infotech provide your business with improved response time, off-hours supporters especially during late-night hours, and comprehensive reporting for all of your IT needs. Your business can only perform at the level your IT does, so make sure both operate at the peak of excellence.
